| 10       | IRM umar nativ si cu substanta de contrast                                                           | 650                                 |
| 11       | IRM regiune cervicala nativ si cu substanta de contrast                                              | 675                                 |
| 12       | IRM cranio-cerebral nativ si cu substanta de contrast                                                | 675                                 |
| 13       | IRM regiuni coloana vertebrala (cervicala, toracala, lombosacrata) nativ si cu substanta de contrast | 680                                 |
| 14       | IRM abdominal nativ si cu substanta de contrast                                                      | 680                                 |
| 15       | IRM pelvin nativ si cu substanta de contrast                                                         | 680                                 |
| 16       | IRM extremitati nativ/segment(genunchi, cot, glezna) cu substanta de contrast                        | 680                                 |
| 17       | IRM hipofiza cu substanta de contrast                                                                | 680                                 |
| 18       | Uro IRM cu substanta de contrast                                                                     | 750                                 |
| 19       | Angiografia IRM trunchiuri supraaortice                                                              | 390                                 |
| 20       | Angiografia IRM artere renale sau aorta                                                              | 390                                 |
| 21       | Angiografia IRM/segment( craniu, abdomen, pelvis, membre etc.)                                       | 600                                 |
| 22       | Angiografia carotidiana cu substanta de contrast                                                     | 500                                 |
| 23       | IRM coloana lombara plus articulatii sacro-iliace nativ                                              | 500                                 |
| 24       | IRM doua regiuni coloana vertebrala nativ                                                            | 600                                 |
| 25       | IRM trei regiuni coloana vertebrala nativ                                                            | 800                                 |
| 26       | IRM cap +coloana cervicala +coloana toracala                                                         | 745                                 |
| 27       | IRM abdomen superior +colangiografie                                                                 | 500                                 |
| 28       | IRM abdomen total(superior+inferior)                                                                 | 700                                 |
| 29       | IRM ureche interna                                                                                   | 500                                 |
| 30       | IRM cap +gat nativ                                                                                   | 570                                 |
| 31       | IRM cap +gat contrast                                                                                | 700                                 |
| 32       | IRM sold + articulatii coxo-femorale nativ                                                           | 445                                 |

|    |                                                                    |     |
|----|--------------------------------------------------------------------|-----|
| 33 | IRM sold – articulatii coxo-femorale nativ + substanta de contrast | 600 |
| 34 | IRM sacro-iliace nativ                                             | 445 |
| 35 | IRM articulatii sacro-iliace nativ + substanta de contrast         | 800 |

Mentiuni:

In pret sunt incluse: - CD

- Substanta de contrast(240lei)

- 1 Film

Substanta de contrast folosita: GADOVIST solutie injectabila: - 1 flacon/30 ml – pret 750 lei

-1 flacon 7,5 ml – pret 192 lei.
